

EVantage™

Superior Single Glazed Performance

EVantage™ offers the ultimate performance when it comes to single glazed low-e products. Featuring a specialized coating with highly reflective properties, EVantage™ not only provides you with the maximum thermal control possible but a high level of privacy and security.

EVantage™ is ideal for use in skyscrapers and larger corporate offices due to the significant increase of energy saving costs while maintaining both privacy through its reflective coating and the attractiveness of large window spaces to provide powerful natural light.

EVantage™ is a trademark of Oceania Glass.
